

目標解答時間：5分

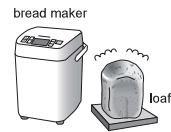

Your host family in New Zealand have decided to buy a bread baking machine. You found this useful pamphlet.

Make your own bread!

Welcome to the world of easy and healthy baking!

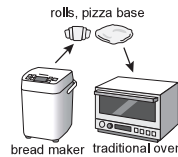

1. The convenience of bread machines

With our machine, baking bread and making dough is quick and easy. Just put the ingredients into the machine, and it does the rest. Once the bread is baking, relax and enjoy the delicious smell!

2. Not just a simple loaf of bread

This machine can also make dough for rolls and the base of pizzas. First, use the machine to make the dough. Take it out and shape it. Then bake in a traditional oven.

3. Choose the ingredients

To make simple bread, use flour, water, oil, yeast and salt. Add flour and salt to the machine. Next, add all the wet ingredients. The yeast is added last. Why not add more flavor with seeds, onion or cheese? Do you have an allergy to wheat flour? Use an alternative like rice flour instead.
