**Music Training and Language Learning**

In Finland, children learn music early. They can enjoy music class by playing **instruments**, singing songs and playing games. **Researchers** say that learning music every day has many good **effects**.

Children who enjoy music can learn many words. They can also **improve** good **pronunciation**. Because of this, many children can also learn languages. It is said that people in Finland can speak around three to five languages. The main languages are **Finnish** and Swedish. Other languages like English, Russian and Arabic are also spoken by many people in Finland.

Because children in Finland learn music early, they can also learn languages easily. People say that if you speak many languages, you can learn many things about the world.
